OPERATIONS ON THE LOWER POTOMAC. As the Stepping Stones was leaving the lower flotilla restorday merning, on her way upwards, the Freeborn and the Resolute were starting on a reconnoitering expedition at Aquia creek. A beat was sent off from each vessel, and on nearing the shore they were perceived by the robels, who fired several shots at them, but withou effect. One shot was fired at the Resolute, passing clos to her stern. The boats then put back, and the ster returned to their anchorage. This morning a solitary shot was fired from the battery at Cockpit Point towards the Maryland shore, but it has not been ascertained at what. The Stepping Stones, while I write, is on her way

On Friday morning a launch left Mattawoman creek, with stores for the Fifth Excelsior regiment. On reaching Stump Nock the battery on Cock Pit Point opened fire on her. This was followed up by a continuous fire from the whole line of batteries, but though the launch kept the middle of the river, not a shot struck her. On reach ing Liverpool Point, where the regiment is encamped the shots fell short. This is the first time fire has been opened from that spot, and opinions differ as to whether there is a fixed battery there or whether the fire was from field pieces.

THE GEORGETOWN AND WARRINGTON RAHROAD.
On motion of Mr. GRIMEN, (rep.) of I lows, the bill to incorporate the Georgetown and Washington Railroad Company was taken up.

The bill provides for the construction of a street railway from Washington to Georgetown, through the warlous avenues of Washington. The third section provides that ten per cent of the gross receipts be paid for the benefit of the public schools.

Mr. Hale, (rep.) of N. H., moved to strike out that section. He thought that too high a tax.

Mr. MORIBLE, moved to strike out ten per cent and insert five.

Mr. Morena moved to strike out ten per cent and insert five.

Mr. Hall thought the common schools of the district required looking into. The government at present was occupying a magnanimous presition, taking a large class of citizens who receive no benefit from the schools. He moved to amend so as to make the amount pand to the common schools three per cent of the gross receipts. Adopted.

The room duarbs in Missouri and Maryland. The report of the Committee on Conference on the bill to raiso certain troops in Missouri and Maryland was taken up.

Mr. Transmull, (rep.) of lil., thought the report ought not to be adopted without the consideration of how those men were raised and how paid.

Mr. Hentenson, (Union) of Mo., said the men were raised by order of the President last November. He could not claim regularily for all that had been one in Missouri. The men were raised there to checkmate the robels, and organized as a home guard. The State Convention did all they could to keep these men in the field, but they had not the same advantages as more loyal States, and the finances of the State were in a bad condition, and the arrangement was made between Governor Gambie and the President, by which they were taken into the United States service. He hoped these troops would be allowed to remain. They were doing as good service as any troops in the country.

Mr. Transmull said he appreciated the remarks of the State; yet he thought it was doubtful whether any State would be allowed to have a local militia to be paid by the United States, not to be taken out of the State.

Mr. Hendenson said they could be ordered out of the State for the defence of the State; and, even, if necessary go to New Orleans.

NATIONAL RAYINGS HANK AND GOVERNMENT VISCAL AGENCY.
On motion of Mr. Sinnors, (rep.) of R. I., the resolution that the Committee on Finance inquire into the expediency of cetablishing a national institution for savings, and the fiscal agency of the government was taken up. He said the resolution proposed to establish an agency to receive deposits of small amounts. If the currency of the country is to be paper, it must be on a sound basis. It was proposed by this to form an association of the people to furnish the currency of the country and to have the currency based on gold and silver, which would hasse in any part of the country. An institution of this kind would be of vast service to the povernment. In regard to the national debt it would also be of great advantage in its influence on the current rate of interest, and bring out a large quantity of coin now hearded up. High rates of interest and exchange were a great damage to the currency. He wanted the country and people to get out from under such a grinding oppression as Wall street.

Mr. Sinnons gave way to a motion for an executive session, after holding which the Schale adjourned.

THE CRITENDATION OF WASHINGTON'S METHOAY.

Mr. CRITENDAN, (Union) of Ky., by unnamous consent, presented a petition from Philiadelphia, proposing that on the 22d of Pebruary Washington's farewell Address be read in one of the houses of Congress, by the President of the Senate or Speaker of the House, in the presence of both branches, and that the President, the members of the Cabinet, ex-Presidents of the United States, the Judges of the Supreme Court, the officers of the army and navy and all distinguished citizens, be invited to attend. That the precedings of the day, including the prayer and the address, be printed in pamphlet form and largely distributed. That the address or portions of it be read at the head of the armies and on shipbeard, as the highest incentive to our brave defenders. The petitioners also pray that Congress pages a joint resolution to carry the above into effect.

Mr. Chittioners also pray that Congress pages a joint resolution to carry the above into effect.

Mr. Daws called up the report of the Committee of Elections against the prayer of Joseph Segar, asking that he be admitted to a reat in the House as a member of the Thirty-seventh Congress from the first district of Virginia.

Mr. Daws caused to be read the report of the committee, in which it is said that the only evidence of the election of Mr. Segar was the certificate of the judges at Hampton, together with the proclamation of Governor Pierpont, declaring him duly elected. Mr. Segar based his claim on the twenty first voice cast for him, contending that it was a strictly legal election, and that the only unity is, did the memoralist receive more votes than any other candidates Mr. Segar had frankly stated to the committee that bendes Hampton the polls could not be upened in other precincis of the Congressional district, for the reason that they were in the possession of the rebel forces. The committee say there was not a full compliance with the Virginia election code. They do not, however, rest their objection solely on that, but ask, if only twenty five persons voted for Mr. Segar—the polls not being opened throughout the district for the reasons attend—what evidence had they that, if a full vote had been taken, there would not have been an everwhelming vote against him. Mr. Dawes made an explanation, asying that this question involved a principle of vital importance in the manner of choosing representatives. The claim presumed that twenty-flev voters had done all that was necessary, the voters of the remaining part of the district knowing nothing of what they wore doing. The election was in no respect in conformity with the law of Virginia. He (Mr. Dawes) denied the power of the Provisional Convention to interfere with the laws of the Virginia Commonwealth.

Mr. Sana spoke in defence of his claim. At the very threshold the quastion w

NEW CONTRIBUTOR-THE STRONGEST MAN IN world.—In the number of the LEDGER which is not ready, we commence a series of articles by Dr. Windship called "the strong man of the universe," for never, "to tale feats of strength. We have read of giants, sons of Anak, Samson, Maximillian, Sir William Wallace and other of the tides of time, but not one of them ever had the scales as plied to his lifts. Dr. Windship does his lifting in the releast no chance for mistake or vagueness. Everything is "on the quare." And in this unmistakable way the Doctor has lifted It is up among the cicpus uts. Camela are nowhere. And less than one hundred and Bity pounds. This fact makes all emulate Samson and the rost—that, in fact, where there is muscle there is hope. Dr. Windship is going to tell she readers of the LENGER "how to do it"-or, at least, how be has done it, and then they may go and do their best like wise. His first article appears in this week's LEDGER.
